

INDIANA PORTER

DIGITAL ARTIST

ABOUT ME

I'm an Australian digital artist with dual citizenship in the UK. I recently left my job at Channel 9 in Brisbane to settle in Scotland. Over the last decade I've continually developed my abilities in motion graphics, visual effects, graphic design and editing. I'm a hardworking self-starter who thrives on the creative energy generated when working as part of a team.

EXPERIENCE

Video Graphics Artist 2021-2023
Nine Entertainment - Brisbane
Full time position at one of Australia's leading television networks. Working in the Kids TV department on programs including: Smashdown (250 eps), Earth Science Investigators (50 eps) and The Actually Really Very Difficult Show (100 eps). Created highly efficient workflows between graphics and editing departments for each show. My work included keying, tracking and compositing footage and building a mix of 3D and 2D animated assets using Blender and After Effects as utilising plugins such as Element 3D, Sapphire and the Trapcode suite. Additionally I worked casual shifts in Commercial Production and News graphics departments and assisted in the creation of graphics for marketing material.
